

4 October 54

MEMORANDUM TO: Colonel White

25X1A9a

1. A survey of Agency telephones is about to begin. Mr. [REDACTED], Chief of the Telephone Section, has advised he would like to determine at this time, which phones could be put on a restricted basis.

2. This matter has been discussed with [REDACTED], who thinks it might be a good idea if it is handled tactfully and pointed out to the people supplying telephone data that this is for information purposes only and does not indicate any decision to restrict telephones. [REDACTED] also feels that finding out which phones could be restricted might be of aid in reducing the number of local telephone calls.
